

Winners of World Earth Day Photography Competition!

This photo of Viraj from Nursery Class demonstrates his responsibility in properly disposing of waste for recycling. Viraj is inspired by his mother, a sustainability professional, in practising waste recycling and the concept of circular economy.

**SMALL STEPS FOR
MY CHILD, A BIG
STEP FOR THE
EARTH! WALKING
TO SCHOOL,
REDUCING
CARBON
FOOTPRINTS, AND
EMBRACING A
GREENER FUTURE.**

Bader (RO) and Ali (RY) spent Earth Hour productively by baking a cake by candlelight.

Above: Abigail of 4U demonstrates how her family uses coconut oil instead of palm oil.

Below: Yummy Snacks by candlelight during Earth Hour— Aiden of RO with Abigail Alex.

Nouba of 2A and Maria

of 50 were seen planting seeds, supporting a greener environment.

These wonderful pictures of **Evan** (Class 3C) show his passion for looking after the planet

The picture on the left was taken while he and his brother tending to their Christmas tree that had kept in a pot—what a great idea to minimise deforestation!

The second set of pictures show Evan refilling the bird feeder for the birds that regularly visit his garden.

Ealia of 4U and Erika of 2A are contributing to the environment by keeping their neighbourhood clean.

"I am making a seasonal vegetable soup to save the planet. Because it uses natural light and no harmful chemicals to grow them. Also, I am reducing how much meat I eat because that is one of the biggest reasons why the climate is changing." - **Hamza (3P)**

Jayden from class RY is making a difference for the planet—he's planting a tree with his dad, helping to create a greener, healthier Earth for future generations!

Abigail of 4U also contributes to the reforestation initiative by planting a tree.

Zoe's family turned off the lights and lit a candle for Earth Hour. **Zoe (4U)** spent the evening drawing by candlelight, imagining a world where nature is protected and energy is used wisely. It was peaceful, meaningful, and filled with quiet creativity.

Inspired by the quote "Our Power, Our Planet", the theme for Earth Day 2025, **Sally (4U)** turned off the lights and engaged in pot painting during Earth Hour 2025.
